How we handle paid content

A publication covering the Global Goals only has value if readers trust it. So the rules are simple, published, and do not bend for a buyer:

- Every paid placement is visibly labelled as advertising or sponsored content.
- Sponsors have no input into editorial coverage, including coverage about themselves.
- Sponsored articles are excluded from the news feed rankings and from “most read”.
- We publish who our sponsors are.

File formats

JPG, PNG or animated GIF for display units. SVG accepted for logos. Please supply images at twice the listed pixel size so they stay sharp on high-resolution screens.

Maximum 200 KB per display unit

Sizes

Leaderboard 728×90, plus 320×50 for mobile. Sidebar 300×250. In-feed native takes an image at 800×450 with a headline and one line of body text.

We build the responsive versions from these

Sponsored articles

Send the copy as a document, plus any images you hold the rights to. We edit for house style and clarity but never change your meaning, and you see it before it goes live.

Roughly 700–1,200 words works best

Lead times

Display creative five working days before the start date. Sponsored articles two weeks, to allow for editing and your approval. Newsletter sponsorship by the Friday before the Wednesday issue.
